

GoVault™ Data Protection Solution

Fast, simple, reliable and affordable disk-based data protection solution

The GoVault Data Protection Solution is a fast, simple, reliable and affordable disk-based data protection solution that satisfies the backup, disaster recovery, and archive needs of small business. GoVault's unique Data Protection software utilizes data de-duplication technology to provide an extremely cost-effective solution by reducing the number of cartridges required for effective backups by up to 20:1. The result is significantly faster daily backups, so performance doesn't have to be compromised for convenience, while providing a simple to use, easy to organize solution that is tough enough for real-life handling. The GoVault Data Protection Solution includes ruggedized, password protected, removable media cartridges allowing for secure and reliable onsite/offsite backup practices. It is the ideal backup solution for small business servers and high end desktop environments.

Data de-duplication technology eliminates redundant data to dramatically increase the number of backup data sets that can be stored on a single disk, as well as the number of available recovery points. The result is reduced media handling, simplified management, and faster restores, which allows a more practical and cost effective way to provide disaster recovery protection.

GoVault cartridges are available in 40GB, 80GB, 120GB and 160GB capacities, all of which are read and write compatible and interchangeable with any GoVault dock, so it's easy to maintain daily backups and organize data. Choose from the easily-integrated internal dock, which can be quickly installed into either a standard 5.25 inch or a 3.5 inch server or desktop bay, or the stylish brushed aluminum tabletop USB dock that can be connected in seconds.

COMPLETE SOLUTION

INITIAL CARTRIDGE CAPACITIES
UP TO 160GB

DATA DE-DUPLICATION TECHNOLOGY

3 YEAR RAPID EXCHANGE WARRANTY

FEATURES AND BENEFITS

- Fast - Backup completes in minutes, BEFORE you leave the office. Quick, random-access to data for fast restores
- Simple – Every backup is a full backup; no hunting through incrementals like tape
- Reliable – Ruggedized cartridges can withstand a one-meter drop to a hard surface without damage and have 10+ years archive shelf life
- Affordable – Cartridges can be used for months without filling up, thanks to data de-duplication technology
- Solution - Includes Dock, Cartridges (onsite/offsite) and Data Protection software

DRIVE CAPACITY AND PERFORMANCE

Drive Type	Cartridge Capacity (GB)	Drive Throughput Typical/Max (MB/sec)
GoVault	40, 80, 120, 160	26 / 34

Interface: SATA II internal, USB 2.0 tabletop

Device Timing (Seek Rates)

Min. 1 track	1.0 msec read, 1.5 msec write
Average	12.5 msec read, 14.5 msec write
Max	22 msec read, 24 msec write
Latency	5.56 msec (average)
Spindle speed	5400 rpm
Start time	3.5 sec
Stop time including eject	3.0 sec

COMPATIBILITY

Operating System: Linux, Windows 2000, Windows Server 2003, Windows XP, 32 bit and x64, Vista
Backup Software: (Bundled) Windows XP SP2, 2003 Server, Vista

RELIABILITY

Cartridge: 5,000 insertion/removal cycles
Dock: 5,000 insertion/removal cycles
Dock Service Life: 5 years @ 2.75 insertions per day
MTBF: 375,000 hours MTBF at 100% duty cycle internal, 300,000 hours MTBF tabletop
Cartridge Archive Life: >10 years
Unrecoverable Data Rate: 1 error in 10¹⁴

MECHANICAL SHOCK

Non-Operating Cartridge: 2,000 Gs (2 msec half sine) (1 meter (39.4 inches) drop, hard surface)
Non-Operating System: 40Gs internal and 80Gs tabletop (11 msec, half sine)

PHYSICAL SPECIFICATIONS

Form Factor	Internal Dock	Cartridge	Tabletop Dock
Width (in/mm)	4 / 101.6	3.37 / 85.7	4.6 / 117.5
Height (in/mm)	1.63 / 41.3	0.96 / 24.5	2.5 / 63.3
Length (in/mm)	6.57 / 167	4.4 / 111.9	7.2 / 182.5
Weight	16.7oz / 473g	5.6oz / 158.7g	30.4oz / 862g

MECHANICAL VIBRATION (SYSTEM)

Operating Reads / Writes System
Linear:
Magnitude: 0.2G
Range: 10-500Hz, 2.0 Oct/min., sweep sine
Random:
Magnitude: 0.2G RMS
Range: 5 to 500Hz, random sweep
Non-Operating Cartridge: 5.0G, 0 to peak, 5 to 500Hz
Non Operating Dock:
Linear:
Magnitude: 0.1 inches peak-to-peak
Range: 5-15Hz and 1.0G from 15-500Hz, 1.0 Oct/min sweep rate
Random:
Magnitude: 0.2G RMS
Range: 5 to 500Hz

ENVIRONMENTAL

Operating (System)
Temperature °F (°C) 50°F to 104°F (10°C to 40°C)
Humidity (%) 20% to 80% RH Non-condensing
Altitude (ft. maximum) 10,000 ft MSL
Non-Operating (Internal Dock)
Temperature °F (°C) -40°F to 140°F (-40°C to 60°C)
Humidity (%) 10% to 95% RH Non-condensing
Operating (Cartridge)
Temperature F (C) 40°F to 130°F (5°C to 55°C)
Humidity (%) 5-90% RH Non-condensing
Temperature Gradient (Degrees per hour max) 68°F (20°C)
Non-Operating (Cartridge)
Temperature F (C) -40°F to 158°F (-40°C to 70°C)
Humidity (%) 5-90% RH Non-condensing
Temperature Gradient (Degrees per hour max) 86°F (30°C)
Long Term Storage (Cartridge)
Temperature F (C) 68°F to 86°F (20°C to 30°C)
Humidity (%) 20-40% RH Non-condensing
Temperature Gradient (Degrees per hour max) 86°F (30°C)
Voltage (V) + 5, +12 internal, 110 - 220 VAC tabletop
Power Consumption (W) 6

WARRANTY

Cartridge: 3 year limited with Rapid Exchange
Dock: 3 year limited with Rapid Exchange
